**Breed (primary):** Domestic Short Hair

### Last seen location

The address below is the last known address or cross street of where Issy was **seen on 11/17/2019**  
4506 Gra Mar Dr, Nashville, Tennessee 37216 United States (Date last seen: 11/17/2019)

### Physical description / medications / other

Issy is still young and is a beautiful Calico and part Manx cat. Her colors of orange-gold, black, and white are almost equal and beautifully distributed on all parts of her body with a black swatch under her chin and rolling perfectly to the front of her delicate chin. She was born with a 1/2 tail which she sticks straight up at times like a deer does its tail. She has clear bright gold eyes.

He had her rabies shot 10/20/19 and had vaccines at the same time. She loves her people and we love her. She loves to romp in the grass chasing and catching whatever is there including bugs. She is very alert. She catches small mice and doesn't put her claws out but just wants to play with them and when they die she pats them trying to get them to move. It seems to confuse her. She has been known to get nippy when she is tired of whatever her human is doing. If you just stop moving she lets you go. Last seen at the Church on the corner of Old Hickory Blvd and Gallatin Pike. Nashville TN 372115
